## Dream House Descriptive Writing

### *Student Task Sheet*

**Directions:** You are searching for a new home, but not just any home, your DREAM home! You have been reading newspapers and real estate magazines, hoping to stumble across a description of your ideal home, but so far, nothing has caught your eye ... until today!

You have just read the a description of the PERFECT house for you! What did it say? What interesting rooms were included in the house? How many bedrooms does the house have? Any unique features? You will write this description and create a detailed picture of EXACTLY the features you are looking for in your DREAM home.

The description of your dream home will contain all the important information about the home (a descriptive paragraph, drawing, and key information such as address, price, number of bedrooms/bathrooms, nearby attractions, etc...). Think of it as a snapshot of the home's best qualities.
